

Navigate the NGS universe with confidence

Cloud-based genetic diagnostics to accelerate laboratory workflows and enhance patient care

Who we are

- 📍 Located in northern Germany
- 💻 SW Development Company
- 🏭 Medical Device Manufacturer
- ☀️ ISO 13485, IEC 62304, IEC 62366 etc.

- 📖 Our products are
 - ☁️ Cloud based
 - 📖 Clinical Decision Support Systems

The Promise and the Challenge of Genetic Testing

The Promise

End the odyssey for rare disease patients

Diagnose cancer early and accurately

Deliver the most modern Diagnostics to patients

The Challenge

Identify the causative variants quickly among thousands

Implement complex laboratory technologies

Comply with most recent IVDR regulation

Focus on diagnostics – We process the data

Immediate QC feedback to optimize the lab process

No investment in IT infrastructure

Cost savings through automated CNV analysis

Cloud-native CE medical device software

Equal performance and support across the globe

Scales from small panels to WGS

Market Leader in Germany
